

U.S. Department
of Transportation
**Research and
Special Programs
Administration**

DOT-E 9781
(SIXTH REVISION)

400 Seventh St., S.W.
Washington, D.C. 20590

OCT 17 2001

EXPIRATION DATE: July 31, 2003

(FOR RENEWAL, SEE 49 CFR § 107.109)

1. GRANTEE: Persons represented by their agent, The Chlorine Institute, Inc., Washington, DC. (See Appendix A)

(See Appendix B to this document for a list of additional grantees)
2. PURPOSE AND LIMITATION:
 - a. This exemption authorizes the transportation in commerce of non-DOT specification full opening head, steel salvage cylinders for overpacking damaged or leaking chlorine cylinders. This exemption provides no relief from the Hazardous Materials Regulations (HMR) other than as specifically stated herein.
 - b. The safety analyses performed in development of this exemption only considered the hazards and risks associated with transportation in commerce.
3. REGULATORY SYSTEM AFFECTED: 49 CFR Parts 106, 107 and 171-180.
4. REGULATIONS FROM WHICH EXEMPTED: 49 CFR § 173.34(d) and (e), § 173.304(a) (2).
5. BASIS: This exemption is based on the application of Chlorine Institute, Incorporated dated October 5, 2001, submitted in accordance with § 107.109 and supplemental information dated October 12, 2001.
6. HAZARDOUS MATERIALS (49 CFR § 172.101):

Hazardous materials description -- proper shipping name	Hazard Class/ Division	Identi- fication Number	Packing Group
Chlorine	2.3	UN1017	N/A

OCT 17 2001

7. SAFETY CONTROL MEASURES: Packaging prescribed is a non-DOT specification full opening head, steel salvage cylinder of welded construction, with provisions for securely positioning the damaged cylinder contained within. The salvage cylinder must conform with the Chlorine Institute's drawing 188 dated March 19, 1987 on file with the Office of Hazardous Materials Exemptions and Approvals (OHMEA); must be designed, constructed and stamped in accordance with Section VIII of the ASME Code for a working pressure of 250 psig at 300°F and as follows:

Volume.....	31 gallon water capacity (nominal).
Material.....	ASTM A 283, A 53 Gr. B, or equivalent carbon steel.
Outside diameter.....	12 inches, nominal.
Length.....	64 inches, nominal.
Sidewall thickness.....	0.250 inch, nominal (.230 inch, min.)
Design Service pressure (MAWP).....	250 psig at 70°F
Test pressure.....	375 psig.
Openings - Sidewall.....	3/4 inch threaded outlet inside a valve protective cap.
Openings - head.....	Full opening head, hinged to cylinder sidewall.
Pressure relief devices.....	None.
Welded attachments.....	2-lifting rails 2-supports

8. SPECIAL PROVISIONS:

- a. A person who is not a holder of this exemption who receives a package covered by this exemption may reoffer it for transportation provided no modifications or changes are made to the package and it is reoffered for transportation in conformance with this exemption and the HMR.
- b. A current copy of this exemption must be maintained at each facility where the package is offered or reoffered for transportation.

OCT 17 2001

c. Drivers and other persons who load/unload or transport the salvage cylinder must be trained in the handling, loading and unloading of the salvage cylinder. The loaded salvage cylinder must be delivered to the consignor or the consignee as soon as practicable.

d. Each salvage cylinder must be cleaned and purged after each use and must be visually inspected (internally and externally) and hydrostatically retested once every 5 years at a test pressure of at least 375 psig. The visual inspections must be in accordance with the Compressed Gas Association's Pamphlet C-6.

e. Salvage cylinders are authorized for overpacking leaking 100 and 150 pound capacity DOT 3A 480X or 3AA 480X chlorine cylinders.

f. Each salvage cylinder must be secured to the motor vehicle by a securement system that conforms with the requirements contained in § 393.100 through § 393.106.

g. Each salvage cylinder must be plainly marked on the cylinder sidewall, 180 degrees apart, in letters at least 2 inches high on a contrasting background, "DOT-E 9781" and "SALVAGE CYLINDER".

h. Each salvage cylinder must be labeled as prescribed for a chlorine cylinder.

9. MODES OF TRANSPORTATION AUTHORIZED: Motor vehicle and cargo vessel.
10. MODAL REQUIREMENTS: A current copy of this exemption must be carried aboard each cargo vessel and motor vehicle used to transport packages covered by this exemption.
11. COMPLIANCE: Failure by a person to comply with any of the following may result in suspension or revocation of this exemption and penalties prescribed by the Federal hazardous materials transportation law, 49 U.S.C. 5101 et seq:
- o All terms and conditions prescribed in this exemption and the Hazardous Materials Regulations, 49 CFR Parts 171-180.
 - o Registration required by § 107.601 et seq., when applicable.

OCT 17 2001

Continuation DOT E-9781 (6th Rev.)

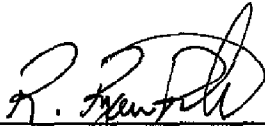

Page 4

Each "Hazmat Employee", as defined in § 171.8 who performs a function subject to this exemption must receive training on the requirements and conditions of this exemption in addition to the training required by § 172.700 through § 172.704.

No person may use or apply this exemption, including display of its number, when the exemption has expired or is otherwise no longer in effect.

12. REPORTING REQUIREMENTS: The carrier is required to report any incident involving loss of packaging contents or packaging failure to the Associate Administrator for Hazardous Materials Safety (AAHMS) as soon as practicable. (Sections 171.15 and 171.16 apply to any activity undertaken under the authority of this exemption.) In addition, the holder(s) of this exemption must inform the AAHMS, in writing, of any incidents involving the package and shipments made under the terms of this exemption.

Issued in Washington, D.C.:

Robert A. McGuire
Associate Administrator
for Hazardous Materials Safety

OCT 17 2001
(DATE)

Address all inquiries to: Associate Administrator for Hazardous Materials Safety, Research and Special Programs Administration, Department of Transportation, Washington, D.C. 20590.
Attention: DHM-31.

The original of this exemption is on file at the above office. Photo reproductions and legible reductions of this exemption are permitted. Any alteration of this exemption is prohibited.

Copies of exemptions may be obtained from the AAHMS, U.S. Department of Transportation, 400 7th Street, S.W., Washington, DC 20590-0001, Attention: Records Center, 202-366-5046.
